

Luciano Guerrero

+56 9 6245 5618 | lucianogroc@outlook.com | Santiago, Chile | Portfolio | Github

Backend Developer specializing in Java and Spring Boot, with a strong foundation in RESTful APIs, microservices architecture, and cloud services. I enjoy tackling technical challenges and exploring emerging technologies, complementing my profile with knowledge of Artificial Intelligence and Machine Learning.

Additional Skills

Web Development

React · Node.js · Express · JavaScript · TypeScript · Tailwind CSS · HTML · CSS

Tools

Git · Linux · Postman · SSH

Languages

English

Projects

Customer Management System

Technologies: Java 21 · Maven · Spring Boot 3 · Spring Cloud (Gateway, Eureka, OpenFeign) · Spring Security · PostgreSQL · Docker · GitHub Actions · AWS (Lambda, EC2, DynamoDB) · JUnit · Mockito

Designed and built a customer management system based on a microservices architecture using RESTful APIs.

- Integrated PostgreSQL persistence using Spring Data JPA.
- Secured API access with session-based authentication using Spring Security.
- Automated the CI pipeline with GitHub Actions.
- Deployed the microservices to Amazon EC2 using Docker containers.
- Connected the APIs to my portfolio, including a serverless contact form powered by AWS Lambda and DynamoDB.
- Wrote unit tests using JUnit and Mockito.

AI Image Processing Service

Technologies: Python · Flask · Google Cloud Platform (Artifact Registry, Cloud Run) · Docker

Developed a web service for automated image processing using a pre-trained AI model.

Professional Experience

Freelance Developer | 2022 – Present

- Integrated the Getnet API to enable payment processing for web applications.
- Managed hosting, domain configuration, and website deployments.
- Developed functional improvements and maintained web services and websites.

Search Engine Evaluator & Data Collection | 2022 – 2025

APPEN GLOBAL

- Evaluated search engine results and digital advertising content according to established quality standards and guidelines.
- Collected and classified data for training Artificial Intelligence models.

Technical Support Assistant | 2014 – 2018

MANIATIC GAMES

- Provided technical support by diagnosing issues and recommending appropriate solutions.
- Installed, configured, and maintained computers and operating systems.

Education

Universidad San Sebastián

Ingeniería Civil Informática (Incomplete)

Santiago

2019 – 2021

Professional Development

- Oracle Next Education – Alura LATAM
- Microsoft Learn – Machine Learning Challenge
